Profile summary

I am a motivated BCA student with a strong interest in data analytics, seeking an opportunity to apply my analytical, technical, and problem-solving skills in a dynamic organization. I aim to develop practical experience in data cleaning, visualization, and interpretation using tools like Excel, SQL, and Python. My goal is to contribute to data-driven decision-making by transforming raw data into meaningful insights while continuously learning and enhancing my analytical abilities.

Work Experience

Data Analyst Intern, Coding Cloud Technology , Ahmedabad June 2025-July 2025

- Collected, cleaned, and organized raw datasets using Excel and Python to ensure accuracy and consistency for analysis.
- Utilized tools like Excel, Google Sheets, Power BI/Tableau (in dashboard) to present insights clearly.

Projects

Zeto Sales Dashboard | Power BI

- Developed an interactive dashboard to analyse sales, orders, and customer trends.
- Cleaned and transformed data using Power Query and created KPIs and visuals

Education

- Bachelor of Computer Application Aug 2023- Present
  Teerthanker Mahaveer University, Moradabad
- Senior Secondary School 2023
  Kid's Corner sr sec Happy School
- Secondary School 2021
  Kid's Corner sr sec Happy School

Certificate

- Tata Group Data Analytics Job Simulation – Forage,2025
- Certificate Of "Introduction To Computer Training" By Spoken Tutorial Project, IIT Bombay.
- Certificate The Complete Internship, "Data Analyst In Coding Cloud".

Skills

Python : Worked with Python for basic problem solving and handling simple data tasks.Used Python to practice logic building and understand how data can be processed step by step.

Excel : Worked with Excel to organize data, use formulas, and create simple reports.Used functions like sorting, filtering, and basic formulas to analyze and clean data.

SQL : Used SQL to work with data by writing queries to filter, sort, and retrieve required information. Practiced creating and managing tables and extracting useful insights from datasets.

HTML : Have basic knowledge of HTML and can create simple web page structures. Able to use common tags to design and organize content on a webpage.

CSS : Have basic understanding of CSS to style and format web pages. Can apply simple styling like colors, layouts, and spacing to improve page appearance.

Personal Interest

- Traveling
